EDA REVOLVING LOAN FUND

The EDA Revolving Loan Fund (RLF) is a pool of funds that provides gap financing for small businesses. This program serves businesses that cannot otherwise obtain traditional bank financing. Typically the RLF can fund up to 1/3 of the total project and can be combined with bank financing or SCKEDD's other loan programs.

These loans provide access to capital, enabling small businesses to grow and generate new employment opportunities with competitive wages and benefits. Financing also helps support minority and women-owned businesses and retain jobs that might otherwise be lost.
